Interior Design Speaker Series

Art Lighting Essentials for Interior Design

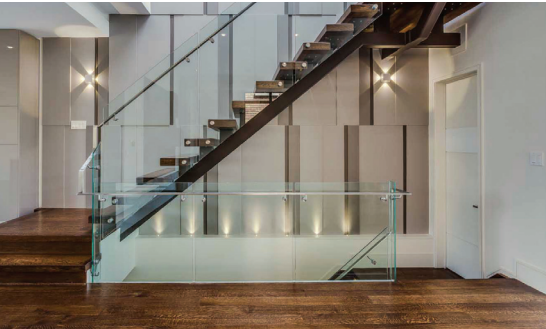

Speaker: Dino Chantziaras
Lighting Systems Designer
DDMLighting Inc.

DDMLIGHTING

Thursday March 31, 6-8pm

Please RSVP to ellen@petroffgallery.com

Petroff Gallery's Interior Design Speaker Series features industry experts sharing their insider knowledge and technical approach on subjects related to interior design.

Dino Chantziaras has 15 years of experience in the lighting industry prior to founding DDMLighting with business partner, Jay Parker. Dino and Jay manage projects from design to prewire, through to final installation and work primarily in collaboration with architects, designers, and general contractors.

Dino's short presentation will outline how to incorporate lighting into your interior design projects by focusing on properly lighting art pieces. There will also be several lighting case studies using Petroff pieces, showing how to light art to its best advantage.
